

## **Curtis Packaging : Environmental Objectives and Targets**

We will employ management systems and procedures specifically designed to minimize the use of hazardous materials, energy and other natural resources to minimize the generation of waste, and to enable recycling and reuse of materials.

We will continually seek opportunities to improve our environmental performance by establishing objectives and targets, measuring progress, and reporting our results; including but not limited to energy, water, fuel consumption and vehicle miles traveled.

We will promote participation and communicate our commitment to responsible environmental management by promoting environmental responsibility among employees; by providing the necessary training and support to enable them to implement this policy; by informing suppliers of our environmental policy and encouraging them to adopt effective environmental management practices.

The following measures will be taken by management and employees to reduce waste, prevent pollution, conserve water and energy.

### **Reduce Electricity Consumption**

Goal 3% reduction each year (per 1M cartons produced)

### **Reduce Water Consumption**

Goal 3% reduction each year (per 1M cartons produced)

### **Reduce Emissions**

Goal 3% reduction per year (per 1M cartons produced)

We continually monitor, manage, and invest in best practices to ensure we are at the forefront of protecting our environment.
